

CMS Money Market Fund

31 March 2025

IMPORTANT INFORMATION

CMS Money Market Fund ("Fund") may not be applicable to all investors. Because of investment risks, investors should consider their own investment objectives and circumstances to decide whether it is suitable to invest in the fund.

- 1) The Fund may depreciate in value due to any of the major risk factors and unitholders may suffer losses on their investment in the Fund. Repayment of principal is not guaranteed.
- 2) The Manager has discretion to determine whether to make any dividend distribution and the frequency and amount of dividend distribution. There is no guarantee that the Sub-Fund will make any regular dividend distribution nor is there any guarantee on the amount of dividend being distributed from time to time.
- 3) The investment decision is yours. You should not invest in the investment product unless the intermediary who sells it to you has explained to you that the product is suitable for you having regard to your financial situation, investment experience and investment objectives.
- 4) The contents of this article are for informational purposes only. Investors should not rely solely on this article to make investment decisions. Investors should read the Fund Prospectus and Product Key Facts Keys for more information, including the fund's risk factors.

Investment Objective and Strategy

- 1) CMS Money Market Fund seeks to achieve a return in Hong Kong dollars in line with a combination of HK Dollars and US Dollars money market rates, with primary considerations of both capital security and liquidity.
- 2) The Sub-Fund seeks to achieve its investment objective by investing primarily (i.e. not less than 70% of its Net Asset Value) in HKD denominated and USD denominated short-term deposits and high-quality money market instruments issued by governments, quasi-governments, international organisations and financial institutions or other corporations. The asset allocation of the Sub-Fund will change according to the Manager's view of market conditions and the international investment trends and environment. The Manager will compare the yield spread of money market instruments denominated in the different currencies (HKD and USD), and will take into consideration factors such as currency risk, liquidity, costs, timing of execution and the relative attractiveness of individual securities and issuers in the market.
